

THE ADVISORS' INNER CIRCLE FUND

LSV

Small Cap Value Fund

SEMI-ANNUAL REPORT TO SHAREHOLDERS

April 30, 2017

This information must be preceded or accompanied by a current prospectus. Investors should read the prospectus carefully before investing.

MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE (Unaudited)

The total net of fee return of the LSV Small Cap Value Fund, the Russell 2000 Value Index (the "Benchmark") and the Russell 2000 Index for trailing periods ending April 30, 2017, were as follows:

	6 Months Ended 4/30/17	1 Year Ended 4/30/17*	3 Years Ended 4/30/17*	Since Inception*
LSV Small Cap Value Fund, Institutional Class Shares	18.24%	25.21%	9.97%	15.23%
<u>Benchmark:</u>				
Russell 2000 Value Index	18.26	27.18	8.71	11.91
<u>Broad Market:</u>				
Russell 2000 Index	18.37	25.63	9.03	12.41

*Periods longer than 1-year are annualized; inception date 2/28/13; net of fees.

Institutional Class Shares performance as of 3/31/17: 25.07% (1 year) and 15.19% (Annualized Since Inception). The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 888-FUND-LSV (888-386-3578).

U.S. equity markets as represented by the S&P 500 Index rallied over the trailing six-month period and were up 13.32%. Small cap stocks outperformed large caps over the period after a significant post-election rally to finish off 2016—the Russell 2000 Index was up 18.37%. Value stocks, however, broadly underperformed over the period as the Benchmark was up 18.26%. The LSV Small Cap Value Fund (the "Fund") advanced 18.24%. U.S. markets posted gains thanks in large part to the "Trump bump" following the November election. Although investors appear skeptical of the U.S. administration's ability to pass policy agenda, the prospects of the Donald Trump's tax reform plans were widely welcomed. Additionally, domestic macroeconomic data and corporate earnings results have proven supportive and further bolstered investor sentiment. Thanks to the improved economic outlook, the Federal Reserve raised interest rates by 25 basis points at the March FOMC meeting, with the expectation of additional increases later in 2017. This period saw a sharp reversal in leadership in markets from the first half of 2016 as more cyclical sectors rebounded while defensive sectors lagged.

Performance attribution indicates that stock selection underperformed the Benchmark and while sector selection added value for the period. From a stock selection perspective, deeper value stocks within Consumer Discretionary and Health Care sectors performed particularly poorly and our holdings underperformed. From a sector perspective, the bulk of the excess return contribution came from our underweight positions in Utilities and Energy. Top individual contributors included overweights to Applied Optoelectronics, MoneyGram, Kulicke & Soffa, and Banc of California. Main individual detractors included overweights to AmTrust Financial, Convergys and Endurance Specialty Holdings as well as an underweight to Advanced Micro Devices.

The Fund continues to trade as of April 30, 2017 at a significant discount to the overall market as well as to the Benchmark. The Fund is trading at 13.0x forward earnings compared to 20.0x for the Benchmark, 1.5x book compared to 1.6x for the Benchmark and 8.0x cash flow compared to 12.9x for the Benchmark. The portfolio is yielding 2.1% on the 12-month dividend yield. Sector weightings are a result of our bottom-up stock selection process, subject to constraints at the sector and industry levels. The Fund is currently overweight the Consumer Discretionary and Industrials sectors while underweight the Utilities and Real Estate sectors.

Our organization remains stable and our research team continues to pursue an active research agenda in which we are looking for better ways to measure value and identify signs of positive change. As always, we are focused

MANAGER'S DISCUSSION AND ANALYSIS OF FUND PERFORMANCE
(Unaudited)

on delivering the long-term results that our investors have come to expect from LSV and that we have delivered for clients since 1994.

This material represents the manager's assessment of the portfolio and market environment at a specific point in time and should not be relied upon by the reader as research or investment advice. Investing involves risk including loss of principal. The information provided herein represents the opinion of the manager and is not intended to be a forecast of future events, a guarantee of future results or investment advice.

Forward earnings is not a forecast of the Fund's future performance. Investing involves risk, including possible loss of principal. Investments in smaller companies typically exhibit higher volatility.

Russell 2000 Index is an unmanaged index comprised of 2,000 stocks of U.S. companies with small market capitalization.

The Russell 2000 Value Index is a widely-recognized, capitalization-weighted (companies with larger market capitalizations have more influence than those with smaller market capitalization) index of U.S. companies with lower forecasted growth rates and price-to-book ratios.

The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the Index proportionate to its market value. The S&P 500 Index is one of the most widely used benchmarks of U.S. equity performance.

Index Returns are for illustrative purposes only and do not represent actual fund performance. Index performance returns do not reflect any manage fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Past performance does not guarantee future results.

(1) Per share calculations were performed using average shares for the period.

Amounts designated as “—” are \$0 or have been rounded to \$0.

The accompanying notes are an integral part of the financial statements

Notes to Financial Statements

April 30, 2017

(Unaudited)

1. Organization:

The Advisors' Inner Circle Fund (the "Trust") (the "Trust") is organized as a Massachusetts business trust under an Amended and Restated Agreement and Declaration of Trust dated February 18, 1997. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 56 funds. The financial statements herein are those of the LSV Small Cap Value Fund, a diversified Fund (the "Fund"). The Fund seeks long-term growth of capital by investing in undervalued stocks which are out of favor in the market. The Fund commenced operations on February 28, 2013. The financial statements of the remaining funds of the Trust are not presented herein, but are presented separately. The assets of each fund are segregated, and a shareholder's interest is limited to the fund in which shares are held.

The LSV Small Cap Value Fund Investor Class Shares commenced operations on June 10, 2014.

2. Significant Accounting Policies:

The following is a summary of the significant accounting policies followed by the Fund. The Fund is an investment company in conformity with U.S. generally accepted accounting principles ("U.S.GAAP"). Therefore, the Fund follows the accounting and reporting guidelines for investment companies.

Use of Estimates — The preparation of financial statements, in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the fair value of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

Security Valuation — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates.

Securities for which market prices are not "readily available" are valued in accordance with Fair Value Procedures established by the Fund's Board of Trustees (the "Board"). The Fund's Fair Value Procedures are implemented through a Fair Value Committee (the "Committee") designated by the Board. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee. At April 30, 2017, there were no securities valued in accordance with Fair Value procedures.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices unadjusted in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 — Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, etc.); and

Level 3 — Prices, inputs or proprietary modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as compo-

Notes to Financial Statements

April 30, 2017

(Unaudited)

nents of the overall fair value measurement.

For the six months ended April 30, 2017, there have been no significant changes to the Fund's fair valuation methodologies.

Federal Income Taxes — It is the Fund's intention to continue to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended and to distribute substantially all of its income to shareholders. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Fund evaluates tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether it is "more-likely-than-not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Fund did not record any tax provision in the current period. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities on open tax years (i.e. the last three open tax year ends, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the six months ended April 30, 2017, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six months ended April 30, 2017, the Fund did not incur any interest or penalties.

Security Transactions and Investment Income — Security transactions are accounted for on trade date for financial reporting purposes. Costs used in determining realized gains or losses on the sale of investment securities are based on the specific identification method. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis from settlement date.

Investments in Real Estate Investment Trusts (REITs) — With respect to the Fund, dividend income is recorded based on the income included in distributions received from the REIT investments using published REIT reclassifications including some management estimates when actual

amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

Repurchase Agreements — In connection with transactions involving repurchase agreements, a third party custodian bank takes possession of the underlying securities ("collateral"), the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. Such collateral will be cash, debt securities issued or guaranteed by the U.S. Government, securities that at the time the repurchase agreement is entered into are rated in the highest category by a nationally recognized statistical rating organization ("NRSRO") or unrated category by an NRSRO, as determined by the Adviser. Provisions of the repurchase agreements and procedures adopted by the Board require that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default by the counterparty. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realization and/or retention of the collateral or proceeds may be subject to legal proceedings.

Repurchase agreements are entered into by the Fund under Master Repurchase Agreements ("MRA") which permit the Fund, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under the MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Fund.

At April 30, 2017, the open repurchase agreements by counterparty which are subject to a MRA on a net payment basis are as follows (000):

Counterparty	Repurchase Agreement	Fair Value of Non-Cash Collateral Received ⁽¹⁾	Cash Collateral Received ⁽¹⁾	Net Amount ⁽²⁾
Morgan Stanley	\$ 7,900	\$ 7,900	\$ —	\$ —

(1) The amount of collateral reflected in the table does not include any over-collateralization received by the Fund.

(2) Net amount represents the net amount receivable due from the counterparty in the event of default.

Expenses — Expenses that are directly related to the Fund are charged to the Fund. Other operating

Notes to Financial Statements

April 30, 2017

(Unaudited)

expenses of the Trust are prorated to the Fund based on the number of funds and/or relative daily net assets.

Classes — Class specific expenses are borne by that class of shares. Income, realized and unrealized gains and losses and non-class specific expenses are allocated to the respective class on the basis of relative daily net assets.

Dividends and Distributions to Shareholders

— Dividends from net investment income, if any, are declared and paid to shareholders annually. Any net realized capital gains are distributed to shareholders at least annually.

3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services (the “Administrator”), a wholly owned subsidiary of SEI Investments Company and/or SEI Investments Distribution Co. (the “Distributor”). Such officers are paid no fees by the Trust for serving as officers of the Trust other than the Chief Compliance Officer (“CCO”) as described below.

A portion of the services provided by the CCO and his staff, whom are employees of the Administrator, are paid for by the Trust as incurred. The services include regulatory oversight of the Trust’s Advisors and service providers as required by SEC regulations. The CCO’s services have been approved by and reviewed by the Board.

4. Administration, Distribution, Shareholder Servicing, Transfer Agent and Custodian Agreements:

The Fund, The Fund, along with other series of the Trust advised by LSV Asset Management (the “Adviser”), and the Administrator are parties to an Administration Agreement, under which the Administrator provides administrative services to the Fund. For these services, the Administrator is paid an asset based fee, subject to certain minimums, which will vary depending on the number of share classes and the average daily net assets of the Fund. For the six months ended April 30, 2017, the Fund paid \$75,497 for these services.

The Trust and Distributor are parties to a Distribution Agreement dated November 14, 1991, as Amended and Restated November 14, 2005. The Distributor receives no fees for its distribution services under this agreement.

The Fund has adopted a distribution plan under Rule 12b-1 under the 1940 Act for Investor Class Shares that allows the Fund to pay distribution and service fees for the sale and distribution of its shares, and for services provided to shareholders. The maximum annual distribution fee for Investor Class Shares of the Fund

is 0.25% annually of the average daily net assets. For the six months ended April 30, 2017, the Fund incurred \$21,354 of distribution fees.

DST Systems, Inc. serves as the transfer agent and dividend disbursing agent for the Fund under a transfer agency agreement with the Trust. During the six months ended April 30, 2017 the Fund earned \$16 in cash management credits which were used to offset transfer agent expenses. This amount is labeled as “Fees Paid Indirectly” on the Statement of Operations.

U.S. Bank, N.A. acts as custodian (the “Custodian”) for the Fund. The Custodian plays no role in determining the investment policies of the Fund or which securities are to be purchased and sold by the Fund.

5. Investment Advisory Agreement:

The Trust and the Adviser are parties to an Investment Advisory Agreement, under which the Adviser receives an annual fee equal to 0.70% of the Fund’s average daily net assets. The Adviser has contractually agreed to waive its fee (excluding interest, taxes, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses) in order to limit the Fund’s total operating expenses after fee waivers and/or expense reimbursements to a maximum of 0.85% and 1.10% of the Fund’s Institutional Class and Investor Class Shares’ average daily net assets, respectively, through February 28, 2018.

6. Investment Transactions:

The cost of security purchases and the proceeds from security sales, other than short-term investments, for the six months ended April 30, 2017, were as follows (000):

Purchases	\$ 122,994
Sales	\$ 39,040

7. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent. To the extent these differences are permanent in nature, they are charged or credited to undistributed net investment income (loss), accumulated net realized gain (loss) or to paid-in-capital, as appropriate, in the period that the differences arise.

Notes to Financial Statements

April 30, 2017

(Unaudited)

The tax character of dividends and distributions paid during the years ended October 31, 2016 and 2015 was as follows (000):

	<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>	<u>Total</u>
2016	\$ 2,601	\$ 1,218	\$ 3,819
2015	2,339	767	3,106

As of October 31, 2016, the components of distributable earnings on a tax basis were as follows (000):

Undistributed Ordinary Income	\$ 3,987
Undistributed Long-Term Capital Gain	922
Unrealized Appreciation	8,275
Total Distributable Earnings	<u>\$ 13,184</u>

Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. The Fund has no capital loss carryforwards at October 31, 2016.

The total cost of securities for Federal income tax purposes and the aggregate gross unrealized appreciation and depreciation on investments held by the Fund at April 30, 2017, were as follows (000):

<u>Federal Tax Cost</u>	<u>Aggregated Gross Unrealized Appreciation</u>	<u>Aggregated Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation</u>
\$ 283,723	\$ 47,024	\$ (15,122)	\$ 31,902

8. Other:

At April 30, 2017, 64% of total shares outstanding for the Institutional Class Shares were held by two record shareholders each owning 10% or greater of the aggregate total shares outstanding. April 30, 2017, 99% of total shares outstanding for the Investor Class Shares were held by two record shareholders owning 10% or greater of the aggregate total shares outstanding. These shareholders were mostly comprised of omnibus accounts that were held on behalf of various individual shareholders.

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

9. Regulatory Matters:

In October 2016, the Securities and Exchange Commission (the "SEC") released its Final Rule on Investment Company Reporting Modernization (the "Rule"). The Rule which introduces two new regulatory reporting forms for investment companies — Form N-PORT and Form N-CEN — also contains amendments to Regulation S-X which impact financial statement presentation, particularly the presentation of derivative investments. Although still evaluating the impact of the Rule, management believes that many of the Regulation S-X amendments are consistent with the Fund's current financial statement presentation and expects that the Fund will be able to comply with the Rule's Regulation S-X amendments by the August 1, 2017 compliance date.

10. Subsequent Events

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to the financial statements.

Disclosure of Fund Expenses (Unaudited)

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for portfolio management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce your final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire period from November 1, 2016 to April 30, 2017.

The table below illustrates your Fund's costs in two ways:

- **Actual fund return.** This section helps you to estimate the actual expenses after fee waivers that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = \$8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

- **Hypothetical 5% return.** This section helps you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the period, but that the expense ratio (Column 3) is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expense Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

NOTE: Because the hypothetical return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown do not apply to your specific investment.

	Beginning Account Value 11/01/16	Ending Account Value 04/30/17	Annualized Expense Ratios	Expenses Paid During Period*
<i>LSV Small Cap Value Fund</i>				
Actual Fund Return				
Institutional Class Shares	\$1,000.00	\$1,182.40	0.83%	\$4.49
Investor Class Shares	1,000.00	1,180.60	1.08	5.84
Hypothetical 5% Return				
Institutional Class Shares	\$1,000.00	\$1,020.68	0.83%	\$4.16
Investor Class Shares	1,000.00	1,019.44	1.08	5.41

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

Board Consideration in Re-Approving the Advisory Agreement (Unaudited)

Pursuant to Section 15 of the Investment Company Act of 1940 (the “1940 Act”), the Fund’s advisory agreement (the “Agreement”) must be renewed after its initial two-year term: (i) by the vote of the Board of Trustees (the “Board” or the “Trustees”) of The Advisors’ Inner Circle Fund (the “Trust”) or by a vote of a majority of the shareholders of the Fund; and (ii) by the vote of a majority of the Trustees who are not parties to the Agreement or “interested persons” of any party thereto, as defined in the 1940 Act (the “Independent Trustees”), cast in person at a meeting called for the purpose of voting on such renewal.

A Board meeting was held on February 28, 2017 to decide whether to renew the Agreement for an additional one-year term. In preparation for the meeting, the Trustees requested that the Adviser furnish information necessary to evaluate the terms of the Agreement. Prior to the meeting, the Independent Trustees of the Fund met to review and discuss the information provided and submitted a request for additional information to the Adviser, and information was provided in response to this request. The Trustees used this information, as well as other information that the Adviser and other service providers of the Fund presented or submitted to the Board at the meeting and other meetings held during the prior year, to help them decide whether to renew the Agreement for an additional year.

Specifically, the Board requested and received written materials from the Adviser and other service providers of the Fund regarding: (i) the nature, extent and quality of the Adviser’s services; (ii) the Adviser’s investment management personnel; (iii) the Adviser’s operations and financial condition; (iv) the Adviser’s brokerage practices (including any soft dollar arrangements) and investment strategies; (v) the Fund’s advisory fee paid to the Adviser and overall fees and operating expenses compared with a peer group of mutual funds; (vi) the level of the Adviser’s profitability from its relationship with the Fund, including both direct and indirect benefits accruing to the Adviser and its affiliates; (vii) the Adviser’s potential economies of scale; (viii) the Adviser’s compliance program, including a description of material compliance matters and material compliance violations; (ix) the Adviser’s policies on and compliance procedures for personal securities transactions; and (x) the Fund’s performance compared with a peer group of mutual funds and the Fund’s benchmark index.

Representatives from the Adviser, along with other Fund service providers, presented additional information and participated in question and answer sessions at the Board meeting to help the Trustees evaluate the Adviser’s services, fee and other aspects of the Agreement. The Independent Trustees received advice from independent counsel and met in executive sessions outside the presence of Fund management and the Adviser.

At the Board meeting, the Trustees, including all of the Independent Trustees, based on their evaluation of the information provided by the Adviser and other service providers of the Fund, renewed the Agreement. In considering the renewal of the Agreement, the Board considered various factors that they determined were relevant, including: (i) the nature, extent and quality of the services provided by the Adviser; (ii) the investment performance of the Fund and the Adviser; (iii) the costs of the services provided and profits realized by the Adviser from its relationship with the Fund, including both direct and indirect benefits accruing to the Adviser and its affiliates; (iv) the extent to which economies of scale are being realized by the Adviser; and (v) whether fee levels reflect such economies of scale for the benefit of Fund investors, as discussed in further detail below.

Nature, Extent and Quality of Services Provided by the Adviser

In considering the nature, extent and quality of the services provided by the Adviser, the Board reviewed the portfolio management services provided by the Adviser to the Fund, including the quality and continuity of the Adviser’s portfolio management personnel, the resources of the Adviser, and the Adviser’s compliance history and compliance program. The Trustees reviewed the terms of the Agreement. The Trustees also reviewed the Adviser’s investment and risk management approaches for the Fund. The most recent investment adviser registration form (“Form ADV”) for the Adviser was provided to the Board, as was the response of the Adviser to a detailed series of questions which included, among other things, information about the investment advisory services provided by the Adviser to the Fund.

The Trustees also considered other services provided to the Fund by the Adviser such as selecting broker-dealers for executing portfolio transactions, monitoring adherence to the Fund’s investment restrictions, and monitoring compliance with various Fund policies and procedures and with applicable securities laws and regulations. Based on the factors above, as well as those discussed below, the Board concluded, within the context of its full deliberations,

Board Consideration in Re-Approving the Advisory Agreement (Unaudited)

that the nature, extent and quality of the services provided to the Fund by the Adviser were sufficient to support renewal of the Agreement.

Investment Performance of the Fund and the Adviser

The Board was provided with regular reports regarding the Fund's performance over various time periods, including since its inception, and information regarding the Fund's performance since the Agreement was last renewed. The Trustees also reviewed reports prepared by the Fund's administrator comparing the Fund's performance to its benchmark index and a peer group of mutual funds as classified by Lipper, an independent provider of investment company data, over various periods of time. Representatives from the Adviser provided information regarding and led discussions of factors impacting the performance of the Fund, outlining current market conditions and explaining their expectations and strategies for the future. The Trustees determined that the Fund's performance was satisfactory, or, where the Fund's performance was materially below its benchmark and/or peer group, the Trustees were satisfied by the reasons for the underperformance and/or the steps taken by the Adviser in an effort to improve the performance of the Fund. Based on this information, the Board concluded, within the context of its full deliberations, that the investment results that the Adviser had been able to achieve for the Fund were sufficient to support renewal of the Agreement.

Costs of Advisory Services, Profitability and Economies of Scale

In considering the advisory fee payable by the Fund to the Adviser, the Trustees reviewed, among other things, a report of the advisory fee paid to the Adviser. The Trustees also reviewed reports prepared by the Fund's administrator comparing the Fund's net and gross expense ratios and advisory fee to those paid by a peer group of mutual funds as classified by Lipper. The Trustees reviewed the management fees charged by the Adviser to other clients with comparable mandates. The Trustees considered any differences in management fees and took into account the respective demands, resources and complexity associated with the Fund and other client accounts as well as the extensive regulatory, compliance and tax regimes to which the Fund is subject. The Board concluded, within the context of its full deliberations, that the advisory fee was reasonable in light of the nature and quality of the services rendered by the Adviser.

The Trustees reviewed the costs of services provided by and the profits realized by the Adviser from its relationship with the Fund, including both direct benefits and indirect benefits, such as research and brokerage services received under soft dollar arrangements, accruing to the Adviser and its affiliates. The Trustees considered how the Adviser's profitability was affected by factors such as its organizational structure and method for allocating expenses. The Trustees concluded that the profit margins of the Adviser with respect to the management of the Fund were not unreasonable. The Board also considered the Adviser's commitment to managing the Fund and its willingness to continue its expense limitation and fee waiver arrangements with the Fund.

The Trustees considered the Adviser's views relating to economies of scale in connection with the Fund as Fund assets grow and the extent to which the benefits of any such economies of scale are shared with the Fund and Fund shareholders. The Board considered the existence of any economies of scale and whether those were passed along to the Fund's shareholders through a graduated advisory fee schedule or other means, including fee waivers. The Trustees recognized that economies of scale are difficult to identify and quantify and are rarely identifiable on a fund-by-fund basis. Based on this evaluation, the Board concluded that the advisory fee was reasonable in light of the information that was provided to the Trustees by the Adviser with respect to economies of scale.

Renewal of the Agreement

Based on the Board's deliberations and its evaluation of the information described above and other factors and information it believed relevant in the exercise of its reasonable business judgment, the Board, including all of the Independent Trustees, with the assistance of Fund counsel and Independent Trustees' counsel, unanimously concluded that the terms of the Agreement, including the fees payable thereunder, were fair and reasonable and agreed to renew the Agreement for another year. In its deliberations, the Board did not identify any absence of information as material to its decision, or any particular factor (or conclusion with respect thereto) or single piece of information that was all-important, controlling or determinative of its decision, but considered all of the factors together,

Board Consideration in Re-Approving the Advisory Agreement (Unaudited)

and each Trustee may have attributed different weights to the various factors (and conclusions with respect thereto) and information.
