*The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares when redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 888-FUND-LSV (888-386-3578). Returns prior to 6/10/2014 are those of the Institutional Class, LSVQX, inception date 2/28/2013. Due to higher fees and expenses in the Investor Class, returns would have been lower.*

*Mutual fund investing involves risk, including possible loss of principal. In addition, investments in smaller companies typically exhibit higher volatility. There is no assurance that any securities mentioned will remain in or out of the portfolio. There is no guarantee that the Fund will meet its stated objective. Current and future holdings are subject to risk.*

**This information must be preceded by or accompanied by a current summary or full prospectus. Please read it carefully before investing or sending money.**

*\*\*Dividend Yield is an indication of the annual dividend income projected to be generated by the portfolio of stocks held by the Fund. To calculate the expected annual dividend of a security held by the Fund, the most recent dividend payment is multiplied by the expected frequency over a year. The Dividend Yield for the Fund is the sum of the dividend yields of the underlying securities of the Fund divided by the most recent applicable NAV of the Fund expressed as a percentage. The Fund's Dividend Yield may vary from this projection and will be reduced by the Fund's expenses.*
