How did the Fund perform in the last year?

The broad U.S. equity market as measured by the S&P 500 Index was up 38.02% for the twelve months ended October 31, 2024. The market's strong performance came despite various challenges, including concerns about inflation, geopolitical tensions, and uncertainties surrounding the US presidential election. The resilience of the US economy and corporate earnings growth were key factors supporting the positive returns. While the market rewarded the mega-cap growth stocks in the period, smaller stocks and value-oriented stocks once again lagged behind. Small cap stocks underperformed large caps over the period as the Russell 1000 Index (USD) was up 38.07% while the Russell 2000 Value Index (USD) was up 34.07%. From a style perspective, value stocks (as measured by the Russell Indices) underperformed growth—the Russell 2000 Value Index (USD) was up 31.77% while the Russell 2000 Growth Index (USD) was up 36.49%. The LSV Small Cap Value Fund, Investor Class Shares was up 26.47% for the period. From a sector perspective, Financial, Materials, Health Care and Real Estate stocks outperformed while the Energy, Consumer Staples, and Utilities sectors lagged.

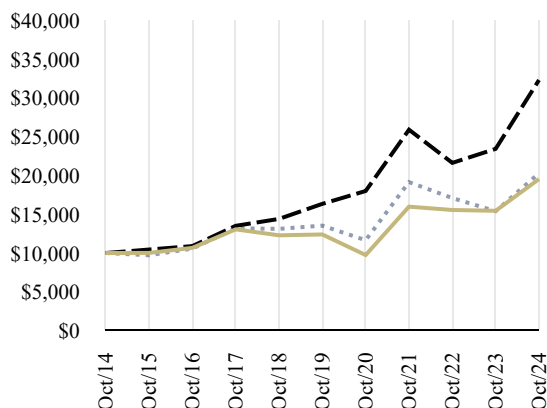

The trailing one year represented a difficult period for the performance of 'value' as a style, as growth stocks outperformed. Stocks that were cheap on cash flow and earnings, which we favor, underperformed among small cap stocks. Additionally, companies with negative earnings, which we were underweight, meaningfully outperformed during the 'risk-on' rally over the period. Performance attribution further indicates that both stock and sector selection contributed negatively to portfolio relative returns for the period. Stock selection relative losses were primarily the result of the underperformance of deep value names within the Financials, Materials, and Industrials. Within Financials, holdings in Consumer Finance, Asset Management & Custody Banks, and Regional Banks subtracted from returns. Within Materials, holdings in Metal, Glass & Plastic Containers, Specialty Chemicals, and Commodity Chemicals subtracted from returns. Within Industrials, holdings in Electrical Components & Equipment, Agricultural & Farm Machinery, and Construction Machinery & Heavy Transportation Equipment subtracted from returns. From a sector perspective, relative losses were more modest and largely the result of our underweight to Health Care and Industrials coupled with our overweight to Consumer Staples. Top contributors for the year included our overweight positions in Sprouts Farmers Market, Toll Brothers, Sylvamo, Mueller Industries, Exelixis, Lantheus Holdings, Coca Cola Consolidated, Primoris Services, Dicks Sporting Goods, and CNX Resources. Not owning Adient, Intellia Therapeutics, Helen of Troy, Synaptics, Green Plains, Ziff Davis, Spirit Airlines, and Talos Energy also added value. The main individual detractors included our overweight positions in Atkore, HF Sinclair, Patterson, AGCO Corp, Bloomin' Brands, New York Community Bancorp, PBF Energy, O-I Glass, and Ironwood Pharmaceuticals. Not owning Carvana, Lumen Technologies, Avidity Bioscience, SI Green Realty, Abercrombie & Fitch, Arcadium Lithium, Taylor Morrison Home, Twist Bioscience, Carpenter Technology, and Glacier Bancorp also contributed to losses.

The Fund continues to trade at a significant discount to the overall market as well as to the value benchmark. The Fund is trading at 10.1x forward earnings compared to 19.4x for the Russell 2000 Value Index (USD), 1.4x book compared to 1.3x for the value benchmark and 6.9x cash flow compared to 11.0x for the value benchmark. Sector weightings are a result of our bottom-up stock selection process, subject to constraints at the sector and industry levels. The Fund is currently overweight the overweight Consumer Discretionary, Financials, and Industrials while underweight Real Estate, Utilities, and Communication Services.

Householding

Rule 30e-1 of the Investment Company Act of 1940 permits funds to transmit only one copy of a proxy statement, annual report or semi-annual report to shareholders (who need not be related) with the same residential, commercial or electronic address, provided that the shareholders have consented in writing and the reports are addressed either to each shareholder individually or to the shareholders as a group. This process is known as “householding” and is designed to reduce the duplicate copies of materials that shareholders receive and to lower printing and mailing costs for funds. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 888-386-3578 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies 30 days after receiving your request.
